

Name => Sameer Singh

Roll no => 1121123

Sec => B

Question => 1 => 3 Security Aspect of Google Account.

~~1) Check Google Privacy Policy.~~

1) Keeps your personal Information Secure => To prevent unauthorized access, Advanced Protection only allows google apps and Verified Third party apps to access your google account data and only with your permission.

2) Provides Extra Protection from harmful downloads => Advanced Protection Perform extra checks on the downloads when downloading a file that may be harmful, it notifies you or Blocks the download on your android phone, only apps from verified stores allowed.

3) Prevent unauthorized access to your account => Advanced Protection requires Security keys for signing to help protect your google data, like emails, documents, etc. Even if someone has your username and password they cannot sign in.
