~~Problem statement: There's~~

Problem statement: Find only 3 security aspects of the Google account

Objective: A google account is the key to accessing all of Google's products and services, many of which are free. Signing up for a Google account is a quick process, but need to give out some personal information. So the main objective is to control the information for Google account holder.

ACTIVITY:

1. Change your Google Account Password.
- 1.) Password should be unique
- Password should have special characters

STEP 1 => Log in to your Google Account.

Passwd

- STEP 2: Click on Security option
- STEP 3: Now, Click on Password.
- STEP 4: First you have to enter your current password for verification.

STEP 5: Now, Reet your current password and then re-enter it

STEP 6: Click on Change Password

STEP 7: Password changed Successfully

The current password is "*****". The password contain special character.

X2) Control what others see about you across Google Services.

STEP 1: Log in to your Google Account

STEP 2: Click on Personal info option

STEP 3: Now, Inside this option click on About Me.

STEP 4: You have many options to change like your DOB, Gender and many more

STEP 5: Apply privacy on your personal details

STEP 6: Privacy Applied Successfully.

3★) Check Google Privacy Policies.

STEP 1: Log to your Google Account

STEP 2: Go to Google Privacy Policies and check the policies associated with it.

Step 3: Following are the some Google Privacy Policies:

- Privacy Reminder from Google
- Third-party sites and apps with access to your Account.
- See, control and delete the information ~~in~~ in your Google Account

Change your Privacy Settings.

Download your Data

Make your Account more secure.

Use Google Smart Lock.
