Problem statement: Analyse the security aspects of Google account.

Objective: A Google account is the key to accessing all of Google's products and services, many of which are free. Signing up for a Google account is a quick process, but need to give out some personal information. So the main objective is to control the information for Google account holder.

Activity

(a) Create a Google account to access to many Google products.

Step 1:- Go to the official site of Google account for sign up.

Step 2:- Click on create account and create your Google account by filling necessary details.

Step 3:- Create password for your account.

Step 4:- Account created successfully.

My email id is hakehalakandari77@gmail.com

(b) Change your Google Account Password.

Few things to remember before changing the current password:

Nirmit

1. Password should be unique.

(3)

2. Password should have special characters.

Step 1: - Log in to your Google account.

Step 2: click on security option.

Step 3: Now, click on password.

Step 4: First you have to enter your current password for verification.

Step 5: Now, Re-enter your current password and then re-enter it.

Step 6: click on change password.

Step 7: - Password changed successfully.

(C) Control what others see about you across Google services:

Step 1: Log in to your Google Account.

Step 2: click on Personal info. option.

Step 3: Now, under this option click on go to About Me.

Step 4: you have many options to change like your Date of birth.

Step 5: Apply privacy on your personal details.

Step 6: Privacy Applied successfully.
